Dear Jim, 10/9/86

With t is letter from Moschella were two TT and an airtel covering the LHM that didn't add to them and none of this includes anything that didn't come out before the House assassins. But if you want copies I'll send them.

I suspect the request is Jimmy's.

The LHM doesn't mention enclosures but the copy count says there were 5.

Nothing indicating copies to HUAS of the Liaison unit.

I wonder why, for the first time on King records that I can recall, they now recall not the agreement between the FBI ~~and~~ and me but the FBI's agreement to what Shea ordered.

And why they cut off at this point what they're disclosing. I've only indicated a few of the records that must exist in my letter to them.

Best,

Harold
